

KAPIL DARYANI

Frontend Developer | React.js Developer | Next.js Developer | React Native Developer

+91 9375244649 @ kapildaryani5802@gmail.com Ahmedabad, GJ

SUMMARY

Frontend Developer with **4.5+ years of experience** building responsive, high-performance web and mobile applications. Skilled in React.js, Next.js, React Native, Vue, Angular, and WordPress, having delivered **15+ successful projects** across web and mobile platforms, with expertise in API integration and state management.

Known for building pixel-perfect UIs, SEO-friendly architectures, performance optimization, and clean, maintainable code. Passionate about developing AI-powered tools, chatbots, dynamic web platforms, and intuitive mobile experiences.

EXPERIENCE

Frontend Developer

Octet Design Studio 05/2023 - Present Ahmedabad, GJ

- Developed web applications using Next.js, React.js, and React Native, focusing on performance, scalability, and maintainability.
- Built custom UIs with Tailwind CSS, MUI, and Ant Design for consistent, responsive experiences.
- Implemented API integrations, Redux state management, and lazy loading for seamless UX.
- Collaborated with backend developers to integrate REST APIs and improve application scalability.
- Worked closely with UX/UI designers and backend engineers to deliver high-quality products.
- Optimized SEO and accessibility (up to approximately 35% Lighthouse improvement) and launched a React Native app on the Apple App Store and Google Play Store.

Jr. Frontend Developer

Hupp Technology Ltd 10/2021 - 04/2023 Ahmedabad, GJ

- Designed & developed responsive websites using React, WordPress and Bootstrap.
- Integrated third-party APIs and implemented dynamic features using JavaScript.
- Assisted in migrating legacy systems to modern frontend frameworks.
- Improved page speed and reduced load times through code optimisation and caching strategies.

TOP PROJECT

Talk To Agent – AI Website Chatbot

<https://www.talktoagent.com/>

AI-powered chatbot platform that enables businesses to train and deploy website chatbots using their website content.

- Built a lightweight chatbot widget that can be embedded into any website using a single JavaScript file.
- Designed scalable frontend architecture, integrated backend APIs, and implemented comprehensive error handling in collaboration with backend developers.
- Improved performance and deployment workflows to deliver a reliable, production-ready client experience.

NineE – AI Fashion App

<https://www.ninee.ai/>

AI-powered fashion platform for discovering outfits, comparing prices, creating collections, and shopping with AI assistance.

- Built the complete cross-platform React Native application for iOS and Android, implementing responsive UI, API integrations, and production-ready features.
- Developed AI chat, dynamic search, price comparison, similar product recommendations, collections, and seamless shopping experiences while optimizing performance and app stability.
- Successfully launched the application on the Apple App Store and Google Play Store, and contributed to the web platform by building blogs, collections, and theme-related features.
